SUMMARY

Junior Full Stack Developer skilled in the MERN stack (MongoDB, Express, React, Node.js) and .NET/C#, with hands-on experience building CRUD applications, RESTful APIs, and database-driven systems. Currently combines a Manager Academics role with active coding, code review, and mentoring of student developers. Comfortable working across the stack from UI to database design, with a growing focus on scalable web applications and applying AI tools to speed up development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Bootstrap/MUI

Backend: Node.js, Express.js, PHP, C#, ASP.NET, MVC, RESTful APIs, OOP

Database: MongoDB, MySQL, SQL Server, DBMS fundamentals

Tools & Other: GitHub, Canva, WordPress, SEO/SMM, AI Prompt Engineering

PERSONAL PROJECTS

MERN Stack Library Application — *MongoDB, Express.js, React, Node.js*

- Built a full-stack library management app with dynamic data handling, RESTful API integration, and role-based views for admins and members.
- Implemented CRUD operations for books and users with a responsive React front end.

E-Commerce Web Application — *MongoDB, Express.js, React, Node.js*

- Developed a scalable e-commerce platform with product listings, user authentication (JWT), and backend API integration.
- Designed the MongoDB schema for products, users, and orders to support real-world checkout flow.

Talent Showcase System — *ASP.NET, C#, HTML, CSS, SQL Server*

- Created a full-stack application to manage and display student talent profiles with complete CRUD functionality.

Book Library Management System — *PHP, MySQL*

- Built a web-based library system with full CRUD operations and database integration for books and users.

Vaccination Management System — *PHP, MySQL*

- Developed a system to manage vaccination records with efficient data handling and a user-friendly interface.

Picnic Games & Puppy Care Website — *HTML, CSS, JavaScript*

- Built an interactive kids' games platform and a responsive pet-care information site, focused on clean UI and smooth UX.

WORK EXPERIENCE

Manager Academics | Aptech North Karachi

2025 – Present

- Lead and coordinate a team of faculty members delivering web development training, ensuring technical accuracy and consistent quality across courses.
- Review student code (HTML/CSS/JS, .NET, PHP, database integration) and guide debugging, structuring, and best practices.
- Coordinate between management and faculty to keep curriculum aligned with current industry tools and practices.
- Monitor student project progress across full-stack builds, from database design through deployment-readiness.
- Foster a collaborative team environment, improving academic delivery and student outcomes.

IT Trainer – Frontend Development | Aptech North Karachi

2024 – 2025

- Delivered hands-on training in HTML, CSS, JavaScript, .NET, and PHP, guiding students through building real, database-integrated web projects.
- Led and code-reviewed multiple student full-stack projects, covering CRUD operations, authentication, and API integration.

- Designed course materials and refined teaching strategies, directly improving student project quality and outcomes.
- Introduced students to AI-assisted development workflows and basic digital marketing tools.
- Promoted to Manager Academics based on training performance and project leadership.

EDUCATION

Master's in Computer Science (MCS)

2023

University of Karachi — Department of Computer Science (UBIT)
CGPA: 3.38

Bachelor's in Mathematics

2020

University of Karachi — Department of Mathematics
First Division

Intermediate (Pre-Engineering)

2017

Govt. Degree Girls College for Women, Nazimabad

CERTIFICATES

- HTML, CSS and JavaScript — 10 Pearls University
- MERN Stack Development (2023–2024) — SMIT — Final Project: SMIT Admission Portal
- Soft Skills Program (2024) — PAFLA

ACCOMPLISHMENTS

- Mentorship Excellence in TECHWIZ — Aptech North Karachi Campus
